Taufiq Mustafizur Rahman

Computer Science & Engineering Student | Tutor | Developer

taufiq222003@gmail.com | +880 1401251270 | https://github.com/taufiqmrahman | Dhaka, Bangladesh

OBJECTIVE

Motivated Computer Science & Engineering student at BRAC University with 2 years of tutoring experience and a strong project portfolio. Seeking opportunities to apply technical expertise and a passion for problem-solving in a dynamic professional environment.

EXPERIENCE

Private Tutor
Self-Employed | *2022 – Present (2 Years)*

- Tutored school and college students in Mathematics, Physics, and core science subjects.
- Designed personalized lesson plans aligned with the national curriculum.
- Tracked student progress and adapted teaching methods to improve learning outcomes.
- Maintained a consistent record of academic improvement among students.

PROJECTS

Multithreaded Process Manager Simulator
BRAC University | CSE Course Project | *2024*

- Built an interactive browser-based OS kernel visualizer simulating process lifecycles, parent-child relationships, and concurrency.
- Implemented fork, wait, zombie state, and kill operations across worker threads with a monitor thread logging snapshots.
- Technologies: C, POSIX Threads (pthreads), Semaphores, Mutex, GCC.

EDUCATION

BRAC University
B.Sc. in Computer Science & Engineering
2024 – Present (Ongoing)

Adamjee Cantonment College
Higher Secondary Certificate (HSC)
2022 – 2023
GPA: 5.00 / 5.00

South Point School and College
Secondary School Certificate (SSC)
2010 – 2021
GPA: 5.00 / 5.00

TECHNICAL SKILLS

Languages
C · C++ · Python · Java · JavaScript

Web
HTML · CSS · React · Node.js

Database
MySQL · MongoDB

Tools
Git · GitHub · VS Code · Linux

SOFT SKILLS

Communication · Problem-Solving · Teamwork · Adaptability · Time Management

Hospital Management System
BRAC University | Full-Stack Project | *2024*

- Developed a full-stack application to digitize core hospital operations including patient records, appointments, and billing.
- Designed an intuitive staff-facing interface for managing patient information efficiently.
- Technologies: [e.g., React, Node.js, MySQL — update as needed]

TicTacToe (Java Desktop App)
Personal Project | Java | *2023*

- Built a fully functional TicTacToe desktop game as a first Java application, applying OOP principles and Java Swing for the GUI.
- Packaged and released as a standalone executable (.exe) for easy distribution.
- Technologies: Java, OOP, Java Swing.

LANGUAGES

Bengali: Native
English: Proficient
